SPECIALIST DEMENTIA SERVICES & SUPPORT

Welcome to Abbey Court. Located within the highly desirable area of Gosforth, and situated on the northern outskirts of Newcastle Upon Tyne's city centre, Abbey Court is a purpose built home with a bright, modern and welcoming atmosphere. Specialising in Residential, Dementia and Nursing Care each of the 44 en suite bedrooms provide modern furniture, interactive alarm system and specialised bed. The inclusion of a LCD television within each bedroom will also be a new feature from the beginning of 2018.

Built over 2 floors, and with a full refurbishment completed in early 2018, the home offers spacious lounges and separate dining areas, a lift between floors, specialised bathing facilities, laundry service, and free unlimited WiFi internet access. Each floor has its own qualified nurse. Individually tailored care is delivered through our dedicated staff in a way that supports the privacy, dignity and needs of each resident. The provision of safe and friendly social care is our highest priority at Abbey Court, and we always strive to ensure that this is delivered within an overall environment that is both stimulating and engaging.

We also fully support each resident's desire for independence which we provide through the use of clear orientation signs within the home, wide corridors and hand rails. Assisted bath and shower rooms also help aid the resident's quality of life. Outdoor garden and seating areas are available at both the front and back of the home for family and social time, whilst there are separate private lounges within the home for when quiet moments are required. Various shops, public transport links, and other amenities are also conveniently situated close to the home.

Our menus are carefully planned, home cooked, nutritionally balanced and varied so as to ensure each resident's dietary needs are catered for.

Our team of staff are key to us delivering the highest standards of care. As a company we encourage and support each member of staff's personal and professional development to ensure they are suitably equipped with the skills required to deliver the care each of our residents need.
