SPECIALISED CARE & RESIDENTIAL SUPPORT

Located in Crawcrook in the picturesque Tyne Valley, Addison Court is a state of the art building, providing a range of nursing and residential care services to residents of all ages, from young adults to the elderly.

Addison Court has been specially designed and purpose-built to cater for young adults, with 20 en-suite bedrooms designated specifically for Young Physically Disabled (YPD) people, with specialist lifting aids and ceiling tracking installed to assist with mobility. A unique, independent 8 bedded specialised facility has been created on site to further enhance the care provision delivered within Addison Court.

Spread over three floors, the home provides 62 spacious en-suite single bedrooms, attractive lounges for relaxing and chatting with other residents and family or taking part in the wide-ranging activities available at Addison Court. We are also proud of our spacious dining rooms where our delicious menus of healthy and nutritious meals are served. There are also a number of additional informal dining and entertainment spaces, including a cafe area and a cinema, where residents can relax and chat with other residents, family and friends.

Many of the bedrooms feature en-suite wetrooms, with specialist furniture and mobility aids available where required to ensure the comfort and wellbeing of our residents. LCD televisions and unlimited internet access are provided as standard.

We understand the importance of independence and encourage our residents to participate, where possible, in the many and varied activities which take place at Addison Court. Activities include gentle exercise, physiotherapy, bingo, cards, cinema nights, carpet bowls, art classes and music, as well as celebrations for our residents and their families. We also provide additional services such as hairdressing, chiropody, dental care and podiatry.

Each element of care provided at Addison Court is bespoke, with residents' specific nutritional, social and healthcare preferences recorded and incorporated into person-centred care plans.
