SPECIALISED CARE & RESIDENTIAL SUPPORT

The Heatherfield provides 74 en-suite single bedrooms, spacious communal facilities over two floors and relaxing landscaped gardens for residents and their families to enjoy.

Located within Annitsford just off the A1 North of Newcastle, The Heatherfield has been designed and purpose-built to provide the very best in specialist care within the North East. The Heatherfield provides modern, tastefully decorated and furnished accommodation with welcoming and homely spaces for living, rehabilitation and relaxation.

Each of the bedrooms feature en-suite facilities, with specialist furniture and mobility aids where required, to ensure the comfort and wellbeing of our residents. Many of the spacious bedrooms are fitted with specialist ceiling tracking. Residents can relax in the privacy of their bedroom or in any of The Heatherfield's communal lounges which offer a range of formal and informal spaces to chat with other residents or family and friends and participate in activities and celebrations.

Additional facilities include a hydrotherapy pool, cinema, fully accessible bathrooms, shower rooms and WCs on each floor which are available for all residents to use. The home also benefits further from lift access to all floors.

Externally, The Heatherfield boasts landscaped gardens to three sides, with seating and planted areas, giving residents and visitors the opportunity to enjoy the scents and colours of the many shrubs and flowers.

We understand the importance of independence and encourage our residents to participate, where possible, in the many and varied activities which take place at The Heatherfield. Activities include gentle exercise, outings, cards, cinema nights, carpet bowls, art classes and music, as well as celebrations for our residents and their families. We also arrange for additional services such as hairdressing, chiropody, dental care, podiatry and physiotherapy.

Each element of care provided at The Heatherfield is bespoke, with residents' specific nutritional, social and healthcare preferences recorded and incorporated into person-centred care plans.
